

REACH

Declaration on Regulation (EG) No 1907/2006 concerning the registration, evaluation, authorisation and restriction of chemicals (REACH)

Dear Sir or Madam,

eddylab is a manufacturer of sensor technology for industrial applications. Our products are classified as articles according to the REACH regulation. Under normal environmental and usage conditions corresponding to the device specifications or foreseeable, no substances are released from our products. We are therefore not subject to any registration, evaluation or authorisation obligation, see Article 7 (1). According to current knowledge, eddylab does not process any substances in products that are subject to a notification obligation to the European Chemicals Agency (ECHA) pursuant to Article 7 (2).

eddylab GmbH fully complies with the obligations of the REACH Regulation and, as a supplier of an article in accordance with Article 33, will inform customers if substances used by us (from a content greater than 0.1%) are classified by the European Chemicals Agency (ECHA) as being of very high concern.

In the interest of high product safety, we intensively monitor the implementation of REACH at our suppliers. According to the current state of knowledge and based on the information provided by our suppliers, none of our products contain „substances of very high concern“ (SVHC substances) according to the current candidate list <https://echa.europa.eu/candidate-list-table> in a concentration of more than 0.1 % by weight.
